DETAILED ACTION

CLAIMS PRESENTED

Claims 1-19 are presented.

Response to Arguments

Applicant's arguments filed have been fully considered but they are not persuasive. Pages 2-7 of the Request for Reconsideration filed 2/2/2005 give the Remarks of Applicant. Pages 2-3 summarize the references and quote the claims. Page 4 gives "encoding" and "decoding" as a novel feature. The rest of page 4 and part of page 5 summarize the references as well. Pages 5-7 are devoted to the dependent claims -- which are quoted in part. The quoted parts of the claims are typical of the aspects of claim 1 that were discussed in pages 2-5.

Thus, the crux of the argument is that "encoding" and "decoding" are not obvious in view of the prior art. This is not found to be persuasive. As Applicant himself notes at page 4, "encoding" and "decoding" are taught in Myers. Furthermore, "encoding" and "decoding" are well known in the art. Unless Applicant is willing to state otherwise (willing to state that "encoding" and "decoding" are not well known in the relevant art — despite the well known existence of cryptography), Applicant's arguments are not persuasive.

CLAIM REJECTIONS

Art Unit: 2134

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable as in the previous Office Action. Please note the previous Office Action for the rejections.

Conclusion

The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art disclosed general background.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Points of Contact

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to:

(703) 746-7239, (for formal communications intended for entry)

Or:

(703) 746-5606 (for informal or draft communications, please label "PROPOSED" or "DRAFT")

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Jung whose telephone number is (571) 272-3836 or Greg Morse whose telephone number is (571) 272-3838.
